# Success Stories

## Congratulations to our partners at VPS!

Service Management Systems, Inc. (SMS) is proud to share that our partners at Destin–Fort Walton Beach Airport (VPS) announced on February 18, 2021, that they have achieved the Global Biorisk Advisory Council® (GBAC) STAR™ accreditation.

Per their website\*, the GBAC STAR accreditation is the cleaning industry's only outbreak prevention, response and recovery accreditation for facilities. It is the gold standard of prepared facilities and means that a facility has:

- Established and maintained a cleaning, disinfection, and infectious disease prevention program to minimize risks associated with infectious agents like the novel coronavirus (SARS-CoV-2).
- The proper cleaning protocols, disinfection techniques, and work practices in place to combat biohazards and infectious disease.
- Highly informed cleaning professionals who are trained for outbreak and infectious disease preparation and response.

\*[<https://gbac.issa.com/issa-gbac-star-facility-accreditation/>]

Under the guidance of GBAC, a Division of ISSA, the worldwide cleaning industry association, the Destin–Fort Walton Beach Airport, alongside our SMS clean team, has implemented the most stringent protocols for cleaning, disinfection and infectious disease prevention in its airport.
